

0.a. Goal

Goal 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

0.b. Target

Target 17.18: By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts

0.c. Indicator

Indicator 17.18.3: Number of countries with a national statistical plan that is fully funded and under implementation, by source of funding

0.g. International organisations(s) responsible for global monitoring

Institutional information

Organization(s):

Partnership in Statistics for Development in the 21st Century (PARIS21)

2.a. Definition and concepts

Concepts and definitions

Definition:

The indicator Number of countries with a national statistical plan that is fully funded and under implementation is based on the annual Status Report on National Strategies for the Development of Statistics (NSDS). In collaboration with its partners, PARIS21 reports on country progress in designing and implementing national statistical plans. The indicator is a count of countries that are either (i) implementing a strategy, (ii) designing one or (iii) awaiting adoption of the strategy in the current year.

4.c. Method of computation

Methodology

Computation method:

Simple count of countries that are either (i) implementing a strategy, (ii) designing one or (iii) awaiting adoption of the strategy in the current year.

4.g. Regional aggregations

Regional aggregates:

Regional-level aggregates are based on the total count of national strategies.

4.h. Methods and guidance available to countries for the compilation of the data at the national level

Methods and guidance available to countries for the compilation of the data at the national level:

PARIS21 SDG Survey through online form + PARIS21 annual NSDS status report (<http://www.paris21.org/nsds-status>)

NSDS Guideline (<http://nsdsguidelines.paris21.org/>)

4.j. Quality assurance

Quality assurance:

Consultation with countries to check information available online

3.a. Data sources

Data sources

Description:

Data is provided by the National Statistical Offices. The information is collected annually and verified by direct email correspondence with the national focal point for the country's NSDS (National Strategy for Development of Statistics).

List:

National Statistical Offices

5. Data availability and disaggregation

Data availability

Description:

The current time series for 2007-2015 covers 121 developing countries.

Time series:

From 2007 to 2015

Disaggregation:

The indicator can be disaggregated by geographical area.

3.c. Data collection calendar

Calendar

Data collection:

Jan-17

3.d. Data release calendar

Data release:

1-Feb-2017

3.e. Data providers

Data providers

Name:

PARIS21

3.f. Data compilers

Data compilers

PARIS21
